‘For a better surgical outcome’

Cup positioning and screw placement in a complex DDH pelvis

Reconstructing a severe acetabular defect

Augmentation

Pre-operative 3D planning
The Faculty

Course Director
Professor Alister Hart was appointed to the UCL chair of orthopaedics in 2011 and is a consultant orthopaedic surgeon at the Royal National Orthopaedic Hospital NHS Trust, Stanmore. The BBC nicknamed him the “Hip Detective” for his work on patients with complex hip problems. He is co-founder and director of the London Implant Retrieval Centre, a worldwide centre for the analysis of orthopaedic implants, which has received 8000 components from 105 UK hospitals and 29 countries.

Course Co-Director
Mr Johann Henckel
Specialist Registrar with research interests in the development of technology applied to hip and knee surgery, with expertise in the field of Robotics and Computer Assisted Surgery.

Professor John Skinner
Consultant Orthopaedic Surgeon at RNOH, specialising in hip and knee surgery, Director of R&D at RNOH and co-director of the London Implant Retrieval Centre (LIRC).

Mr Richard Carrington
Consultant Orthopaedic Surgeon at RNOH, specialising in hip and knee surgery and Director of Medical Education at RNOH.

Mr Hugh Aprotorp
Consultant Orthopaedic Surgeon at The Horder Centre, specialising in minimally invasive hip replacement. He has done more than 6000 hip replacements.

Mr Jonathan Miles
Consultant Orthopaedic Surgeon at RNOH, specialising in disorders of the knee and hip and lead clinician for joint infection unit RNOH.

Mr Philip Mitchell
Consultant Orthopaedic Surgeon at St George’s Hospital, specialising in joint replacement of the lower limb and revision hip and knee replacement.
Venue
The course will be held in the Wellcome Collection in London.

Fee
The course fee is £250. This is inclusive of all course materials, lunch and refreshments.

Registration
To register for the course please go to www.rnoh.nhs.uk/courses
